The same procedure shall also apply to students who have resided for more than 12 hours in the last 14 days in a country that is not on the list of countries with a low risk of Covid-19.

Furthermore, the student does not have to follow the procedure according to the above tables when arriving from countries with medium and high risk of infection, if he has been issued with a national certificate of vaccination against COVID-19 disease, in which:

- a) (in the case of a two-dose schedule based on the summary of product characteristics, at least 22 days but not more than 3 months after the first dose of vaccine has been administered,
