

EULiST-Festival Programme: A Celebration of Women in STEM and Sustainability

In today's world, the pursuit of sustainability and the empowerment of women in STE(A)M fields are more interconnected than ever before. As we face pressing global challenges such as climate change and resource depletion, the need for innovative and inclusive solutions becomes increasingly urgent. Women in STE(A)M bring diverse perspectives and skills that are vital for driving the sustainable transformations our world requires.

This festival celebrates the synergy between sustainability and women in STE(A)M. We warmly welcome **EVERYONE** to join us as we delve into discussions, workshops, and showcases that emphasise the importance of this partnership.

July 2 nd , 2026
